EDUCATION

Ajeenkya DY Patil University

B.Tech in Information Technology (Specialization in Data Science)

Pune

June 2022 – May 2026

EXPERIENCE

Software Engineer Intern

Feb. 2026 – Apr. 2026

ThynkTech India

Pune

- Delivered end-to-end product features using React.js, Node.js, Express.js and MongoDB
- Developed and integrated RESTful APIs to support business-critical workflows and data-driven functionality
- Implemented CI/CD pipelines to streamline deployment workflows and reduce manual intervention
- Built reusable React components enhancing application performance and user experience

Software Developer Intern

Aug. 2025 – Nov. 2025

InstaPrepsAI

Mumbai

- Maintained backend services for the company's primary platform ensuring reliable performance
- Developed RESTful APIs enabling secure and efficient communication between frontend and backend systems
- Containerized application services using Docker and managed deployments with Kubernetes improving scalability
- Developed responsive React UI components improving usability by 30% across mobile and desktop

PROJECTS

NexTrade - Stock Trading Dashboard

- Built a stock market dashboard using React.js and REST APIs for price data and portfolio tracking
- Developed secure RESTful APIs with Node.js and Express.js for trade processing and portfolio management
- Implemented JWT authentication for secure login and role-based access control for 3 user roles
- Designed responsive data visualizations and candlestick charts reducing dashboard load time by 30%

SynapseAI - AI Web Based Application

- Built a full-stack AI conversational platform using the MERN stack for real-time user interactions
- Developed secure authentication using Express-Session with protected routes and role-based access
- Containerized with Docker and integrated CI/CD pipelines to automate build and deployment workflows
- Engineered RESTful APIs for efficient chat data handling reducing response latency by 20%

StaySphere - MERN Based Accommodation Platform

- Developed a full-stack accommodation booking platform with property listing, search and reservation management
- Implemented secure user authentication with Express-Session and role-based access control for 3 user types
- Containerized the application using Docker and configured consistent runtime environment reducing setup time by 35%
- Optimized API response handling and structured prompt engineering improving system accuracy by 25%

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, HTML, CSS

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Redux Toolkit, FastAPI

Databases: MongoDB, MySQL

DevOps & Cloud: Docker, Kubernetes, CI/CD, GitHub

Testing & Tools: Jest, Postman, API Testing

CERTIFICATIONS

IBM Cloud Computing Fundamentals
